PERFORMANCE NOTES:					
1. We had a almost completely full house and a very energetic and engaged audience tonight. They laughed and applauded multiple times throughout the show. We received a standing ovation during the curtain call.					
GENERAL:					
1. When light cue 152 fired tonight, the coordinating sound cue 125 (the rewind) did not fire with it. The cue was taken manually by Matthew. We were not able to determine a cause for the mishap and tested the cue after the show and it ran perfectly.					
SCENIC:					
<i>No notes today, thank you.</i>					
PROPS:					
<i>No notes today, thank you.</i>					
COSTUMES:					
1. Would it be possible to remove the elastic on Chelsea's red character shoes? She says that with the new clasp it stretches too much to stay tight on her foot.
